## H&P PRECISION UK LTD.

## About us

H&P Precision UK LTD. Are a well established tool making and engineering company based in Lichfield, West Midlands specialising in Wire eroding and CNC Milling.

Quality through Expertise & Experience....

The company was founded in 1983 by Bill Hayes and David Packwood. Since then the company has grown and gained a reputation based on quality and reliability.

The company's contracts range from tooling for the automotive industry, plastic injection mould tools, pressure die casting tools, prototypes, and all types of specialist punches and dies.

H&P Precision UK also have Spark eroding and Wire eroding capacities for tooling manufacture.

Customer base is varied giving a service nationally.

We can provide professional advice on design development of tooling to provide cost effective engineering solutions.
